Summary

I am a BTech student in Computer Science (AI) at IGDTUW, with experience in machine learning, data analysis, and applying AI/ML to real-world problems. A strong team player, I excel in collaborating to drive innovative solutions and deliver results in dynamic environments.

Education

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE-AI	Indira Gandhi Delhi Technical University for Women, Delhi	IGDTUW	7.23	2023-2027
Class 12	Sevti Devi Mem. Sr. Sec. Vidya Mandir	CBSE	81%	2023
Class 10	Sevti Devi Mem. Sr. Sec. Vidya Mandir	CBSE	85%	2021

Experience

MAIN FLOW SERVICES AND TECHNOLOGIES PVT. LTD.

July-Sep 2025

Full Stack Web Development Intern

[Certificate](#)

Delhi

- Built a Full Stack Job Portal System and authored a research paper on its design and development.
- Implemented secure authentication, job posting, and search/filter features.
- Gained experience in REST APIs, database integration, and scalable web development.

IGDTUW

June-July 2024

Python & ML Research Intern

[Certificate](#)

Delhi

- Conducted a Summer Research Project on Water Potability Prediction using machine learning and authored a research paper based on the findings.
- Applied data preprocessing, feature engineering, and model optimization using Python.
- Achieved 99% prediction accuracy using Scikit-learn, Pandas, and NumPy.

Projects

Predictive Analytics of Water Potability | Machine Learning Project [Github](#)

Technologies & Tools: Python, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

- Built a machine learning classification model to predict potable vs non-potable water using a Kaggle dataset.
- Focused on data preprocessing, feature engineering, model training, and evaluation for high accuracy.

Design and Development of Job Portal System | Full Stack Web Development [Github](#)

Technologies & Tools: HTML, CSS, JavaScript, React, Node.js, MongoDB, ExpressJS

- Developed a full stack job portal with secure authentication, job posting, search/filter features, and role-based access.
- Gained hands-on experience in frontend-backend integration, database management, and scalable web application deployment.

Healthcare Appointment System | Full Stack Web Development [Github](#)

Technologies & Tools: HTML, CSS, PHP, MySQL

- Designed and developed a web-based healthcare appointment system with role-based access for patients, doctors, and administrators.
- Implemented appointment booking, rescheduling, and schedule management with a strong focus on UI/UX, responsiveness, and accessibility across devices.

Technical Skills

- **Programming Languages:** Python, HTML, CSS, JavaScript, C++
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Scikit-learn, Numpy, Matplotlib, Pandas
- **Tools & Platforms:** GitHub, Visual Studio Code, Jupyter Notebook, Figma, Canva
- **Databases:** MongoDB, MySQL | **Operating System:** Windows

Achievement & Certifications

- Successfully completed an online Consumer Psychology course by IIT, Kanpur at NPTEL
- Startup Development in Emerging Technologies — ANVESHAN Foundation, IGDTUW (40 hrs), Score: 79/100.
- Successfully completed "The Science of Happiness and Well-Being" — NPTEL, 8-week certification program.
- UI/UX Designer Intern — Codec Technologies Pvt. Ltd. (AICTE & ICAC Approved, 1 Month).

Other

- Mentee — Protégé IGDTUW: Trained in Data Structures, algorithms, and systematic problem-solving techniques.
- Participant — Frontend Battle (Vibe Coding), IIT Bhubaneswar: Competed in a frontend development challenge focusing on UI design and rapid coding.
- Associate Member — CDS Centre, Sustainability Group (6 months): Supported monitoring, coordination, and operational activities for sustainability initiatives.
